

## «Gifts from Santa Claus», or what is happening before our eyes

Before you go to the summary of what is happening before our eyes, it is necessary to remind ourselves of some of the concepts that»... soaked in the us with his mother's milk». Today modern science is steadfast pyramid of knowledge created by Mankind during his existence on Earth. This is a rigorous and consistent system of knowledge about the Earth, the Noosphere, the Cosmos, the development of life on Earth. She transformed into specific technical products: the atomic bomb to destroy Humanity (if needed), ships, planes, rockets, power plants, factories, and everyday products – diapers, grenades, TVs, guns, and so forth. Pyramid of modern science was built on a century, so it had to be steadfast.

No one had a right to encroach on **DOGMA** even if **they were founded over 500 years ago**, for example, in **MEDICINE**, which actually will be discussed. Pyramid science enough»that» and»patched», so any encroachment by the looks of anarchy, as the other pyramids there is no (and cannot be).

***It is known that the mouse Brain in exactly the Human Brain.***

*This property relies on a medicine, in particular, **pharmacology** where the action of drugs tested on mice, and if the mouse is not sick, the medicine is prescribed for the use of the King of nature (he - Man). However, in the production of medicines add a variety of chemical additives (especially in Brintsalov), which can cause allergies or any negative consequences.*

Everything that made the knowledge in medicine, is the formation of separate spheres of existence. What has been done.

**Medicine** is a clinic, hospital, syringes, pharmacy. It's all area of resectionist and nothing more. And do september from medicine **TREATMENT** and **NOT A CURE**. **MEDICINE** will become a science only when **KNOWS** what is **LIFE** what is **LIFE CELLS** and what is **LIFE FLESH** of these living cells.

**AND MOST IMPORTANTLY – «FOR WHAT?»**

You can give an example of how the tale of «**Koschei immortal**» is the principle of building structures of the cell. Therefore, doctors and physicians, it is advisable to read «**Russian fairy tales**». There's a lot of «draw» for knowledge.

»...and grabbed Ivan the fool first pike, flew out from inside the duck, duck - egg, eggs needle.

Broke Ivan the fool needle, and did not Koshcheev...» **Translate into the structure of octaves**. The initial octave is a structure of an external condition. The needle is octave structure of the Brain. For a Human Brain – 71.5 octave ( $2^{71.5}$ ). The sperm has 96 octave. Dispersion 96 -> 71.5 increases the size in the tens of thousands of times. Density potentials octave 71.5 such that the dispersion within 100 years puts a

needle into the egg (elimination of the Brain).

When the answer to these questions, then **MEDICINE** will be **SCIENCE**.

The article in this direction has already been written. But after the publication of **Research Institute «Centre of Proactive Strategies»** ([www.salvatorem.EN](http://www.salvatorem.EN)).
